Passport & Photo Printing — in one software

Your daily counter work, done in minutes. No Photoshop, no hassle.
Exact size, clean background, straight to print.

For Windows PC

What your studio gets

Passport photo in 1 minute

Take the photo, pick the size, print. Background, crop and face size are set automatically.

100 photos from a pen drive

Set it once, then just press Enter. Every photo opens with the previous settings.

Exact-size prints

35×45 means 35×45 mm. 4×6 means 4×6 inches. Each size goes to its own printer.

No per-photo cost

Passport and Photo Printing run on your own PC. Process as many photos as you like.

Also included

- ✓ **Automatic updates** — new features arrive on their own, nothing to install.
- ✓ **WhatsApp support** — the in-app "Help" button sends your problem and a screenshot straight to us.
- ✓ **Staff-wise login** — every staff member has their own login. You decide who can use what.
- ✓ **Originals stay safe** — the customer's original photo is never changed; a new copy is always created.

Start with a free trial

Try it at your own counter. We will handle setup and training.

Passport / Visa Photo

Three steps. The face stays original. Sizes for every country.

Taking the photo

- ✓ **Direct from camera** — 3-second timer and an oval face guide.
- ✓ **File or drag & drop** — mobile/iPhone (HEIC) photos too.
- ✓ Customer name + job number — added to the file name automatically.

Size

- ✓ **India Passport by default** + Schengen, UK, US/OCI, Canada, Australia, China, Japan, Singapore, Malaysia, Saudi, Thailand, NZ, PAN, Driving Licence and more.
- ✓ **Custom size** — any size, with face % and DPI.
- ✓ **Face size check** — shows the face %; green when right, red when wrong.
- ✓ A note for staff with each size (e.g. white background, both ears visible).

Background & look

- ✓ **Automatic background removal** — white, blue or any colour in one click.
- ✓ **Clean hair edges** — a slider plus a manual brush (erase / restore).
- ✓ **Colour correction** — brightness, contrast, Kelvin, one-click white balance, Auto.
- ✓ **Gentle skin smoothing** — limited to passport-safe levels, with before/after.
- ✓ Zoom, straighten, and guide lines for head top and chin.

Print & save

- ✓ **Auto-filled sheets** — 4×6, 5×7, 6×8, 8×10, A4; copies, gap, cut lines.
- ✓ **Combo sheet** — different sizes on one paper.
- ✓ **Direct print at exact size** — each paper goes to its preset printer.
- ✓ Name + date under the photo (optional). Files saved with correct DPI.

Optional add-on: AI clothes change

Formal suit, white shirt, blazer or kurta — change the customer's clothes in one click, **face stays exactly original**. This is an AI feature and uses credits; the rest of the Passport module needs no credits.

Photo Printing

Customer brought a pen drive — 4×6, 6×8, postcard... all on one screen.

4×6

5×7

6×8

8×10

Postcard 3.5×5

Visiting Card 2×3

Polaroid (frame)

Original size

Fast work

- ✓ **Whole folder at once** — open the pen drive, all photos are listed.
- ✓ **Enter = save + next photo** — size, border and colour carry over from the previous photo.
- ✓ **Same settings on many photos** at once.
- ✓ **Saves in the background** — staff never waits.
- ✓ **Full keyboard control** — 1–9 for size, Enter, arrows; less mouse.

Crop & look

- ✓ **Smart crop** — face-aware, heads never get cut.
- ✓ **Remove unwanted sides** — full photo with crop box, scroll to zoom.
- ✓ **Crop / fit whole photo / border** (any colour). Rotate, mirror, straighten.
- ✓ **Pro colour correction** — Kelvin, white balance, R/G/B, shadows, sharpness, noise reduction, ready presets.
- ✓ **Reduce face shine** (forehead glare) — auto or brush.

What you need

Windows 10 / 11 (64-bit) PC, 8 GB RAM recommended · Internet (for login) · Photo printer

No mistakes

- ✓ **Low-resolution warning** — a red mark before a blurry print; one-click AI upscale (free).
- ✓ **Saved photos are clearly marked** — green "Saved"; even when the same pen drive comes back later.
- ✓ **Finds duplicates** — the same photo twice, even with a different name.
- ✓ **Originals never change** — copies go to a separate Print_Ready folder, by size.
- ✓ **Disk full / locked pen drive** — clear warning, nothing left half-done.

Print

- ✓ **Printer Setup** — 4" roll printer for 4×6, 5" roll for 5×7; set once.
- ✓ **One-click print** — every photo to its own printer, with copies.
- ✓ **Polaroid** — coloured frame, thick bottom border, optional caption.
- ✓ **Collage** — 2 to 9 photos on one paper, 12 layouts.
- ✓ **Original size** — just colour + crop, no paper size (great for WhatsApp/online).
